### LETTER OF COMMITMENT

Dear Madam, Sir,

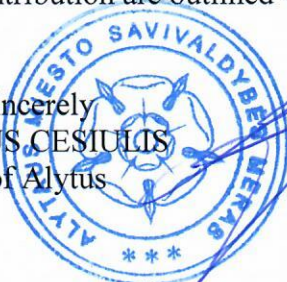

The city of **Alytus** confirms its commitment to be the Project Partner in the activities of the URBACT Transfer Network proposal entitled **TechRevolution 2.0**.

The Good Practice to be adapted and re-used in this Transfer Network comprises 2 main pillars: 1) [Enterprising Barnsley](#) - an award winning business support programme, and 2) the [Digital Media Centre \(DMC\)](#) - a landmark hub for creative and digital business in the town centre, developed over 12 years, to grow Barnsley's digital economy and create more higher value jobs in the creative, tech and digital sectors in particular.

We are convinced that by working through this URBACT network, we will be able to improve the implementation of our policy challenge. In this context, if the proposal is approved within the framework of the URBACT III Programme, we will actively participate in the network activities, take on roles and undertake activities as indicated in the application form work plan. More especially, we commit to participate in the transnational meetings planned and to work with key stakeholders in an URBACT Local Group to co-produce the agreed outputs.

To this end we also formally commit to engaging the funds needed to co-finance ERDF. The details of this contribution are outlined within the application.

Yours sincerely  
NERIJUS CESIULIS  
Mayor of Alytus
